THE DAILY JOURNAL

Is the best daily paper published on the line of the Central Pacific Railroad, east of Sacramento, and having a general circulation throughout the State. It is especially valuable as an advertising medium.

THE DAILY AND WEEKLY JOURNAL have a combined circulation larger than that of any interior journal of Nevada, excepting those on the coast.

Bodie Railroad.

The surveying party, on the Bodie extension of the V. & T. Railroad, has the grade stakes set as far as Stinking Wells, in Churchill Valley. As from this point the route has not been decided upon, the main body of the party has returned to Carson. A reconnoitering party, has gone out to determine whether they will make Walker Lake, a portion of the route by means of boats, or whether they will continue south through Mason Valley, to Aurora, and Bodie. If the Walker Lake route is adopted, Candelaria will be the objective point. They will then, be closer to several promising camps on the Eastern side of the Lake.

45 Years before the Public THE GENUINE DR. C. McLANE'S LIVER PILLS

are not recommended as a remedy for all the ills that flesh is heir to, but in affections of the Liver, and in all Bilious Complaints, Dyspepsia, and Sick Headache, or diseases of that character, they stand without a rival.

ACUE AND FEVER.
No better cathartic can be used preparatory to, or after taking quinine. As a simple purgative they are unequalled.

BEWARE OF IMITATIONS.
The genuine are never sugar-coated. Each box has a red wax seal on the lid, with the impression, McLANE'S LIVER PILLS. Each wrapper bears the signature of C. McLANE and FLEMING BROS. Insist upon having the genuine DR. C. McLANE'S LIVER PILLS, prepared by FLEMING BROS., Pittsburgh, Pa., the market being full of imitations of the name McLane, spelled differently but same pronunciation.

INVALIDS AND OTHERS SEEKING HEALTH, STRENGTH and ENERGY,

WITHOUT THE USE OF DRUGS, ARE REQUESTED TO SEND FOR THE ELECTRIC REVIEW, AN ILLUSTRATED JOURNAL, WHICH IS PUBLISHED FOR FREE DISTRIBUTION.

IT TREATS UPON HEALTH, HYGIENE, and Physical Culture, and is a complete encyclopedia of information for invalids and those who suffer from Nervous, Exhausting and Painful Diseases. Every subject that bears upon health and human happiness, is treated in its proper place, and the many questions asked by suffering invalids, who have despaired of a cure, are answered, and valuable information is contained in all the articles. It is a most interesting and instructive journal, and one of the most important to suffering humanity, is daily considered and supplemented.

YOUNG MEN

And others who suffer from Nervous and Physical Debility, Loss of Manly Vigor, Premature Ejaculation, and the many gloomy consequences of early seduction, are especially benefited by consulting this journal.

The ELECTRIC REVIEW exposes the numerous frauds practiced by quacks and medical impostors who profess to "cure" nervous debility, and point out the only safe, simple, and effective road to Health, Vigor, and Manly Power.

MISCELLANEOUS.

BISHOP WHITAKER'S SCHOOL FOR GIRLS, RENO.

This School has been in successful operation for three years and a half, and has become well known throughout the State. From the time it was first opened until now no pains have been spared on the part of those who have it in charge to make it a

FIRST-CLASS SCHOOL.

Fully worthy the confidence of those who have daughters to be educated. And these efforts have been successful. It gives us pleasure to say that although the number of scholars has at some time been larger than during the last term, the school is now in better condition than it has ever before been, and it is now, more than ever before, worthy of patronage and support.

TEACHERS:

Miss Kate A. Hill, the first Principal, returned and resumed her position at the beginning of the last term, to the great satisfaction of every scholar, and friend of the school. Mrs. L. B. Graham has also returned, and with Miss Hill will hereafter be identified with the school. Miss Eva Quaid, the teacher of music, is too well and favorably known to need any commendation from us. In addition to these the Rev. A. H. Jenney, Miss Julia S. Woodruff, and Miss Jane Briscoe, three thoroughly competent teachers have been employed during the past term. Addition to the staff of teachers will be made whenever the wants of the School may require it; but with thirty-five scholars, the number in attendance during the last term, six teachers are amply sufficient to do full justice to every scholar. While special attention is given to the

Common English Studies.

And to the health and good manners of scholars, there is not wanting every facility needed for acquiring all the accomplishments of a

Higher Education.

One admirable feature of the School is that lessons in Free Hand Drawing, Singing and Penmanship are given regularly to all the pupils without extra charge. Calliope and Thymian Training also receive due attention. But the best feature of the School is that it is a

Refined, Cultivated, Christian Home

It is in the formation of a pure womanly character in its pupils that its best and most enduring influence is to be found. There are few who have been long connected with the School who do not show the effect of this influence upon their character and habits. The charges are as low as they can reasonably be placed.

\$300 a Year

Pays for Board and Tuition in all the English studies. Books and Washing are charged at the actual cost. An additional charge is made for private lessons in Music, Drawing or Modern Languages.

The Next Term begins on Thursday, January 8, 1880.

Letters of inquiry and applications for admission should be made to

MISS KATE A. HILL,

The railroads are said to have instigated the Senate resolution of inquiry relating to the bribing of the Pacific Mail. Having secured the most valuable franchises and property of the Pacific Mail by the transfer of the San Francisco and China line, they are not unwilling to be relieved of the payment of \$110,000 per month to the steamship company. This view is taken by the New York Times and other journals.

We notice that Judge Harris is having published in the Carson Appeal, a number of applications for timber land located in Washoe county. It does not look right to publish such notices in an Ormsby county paper when there are papers in Washoe county. The rule is that where there is a newspaper in a county it ought to have the legal advertising. The Reno papers do not expect notices of applications for timber in Ormsby county. Will the Register please explain?

The new New York Mining Exchange on Saturday last elected the first one hundred members, Mark McDonald heading the list. There were three hundred and fifty applicants. Three fourths of the new members are New Yorkers. The second hundred will not be elected until about April 1st, and the Board will not get into working order before May 1st. Jesse B. Stephen A. Douglass, Jr., delivered a lecture last Friday night before the Chicago Young Men's Auxiliary Club (Republican) on the social and political condition of the South since the rebellion, in which he made a very strong Republican speech. He related the ten years' experience in the South which made him a Republican, although born and bred a Democrat. He told thrilling tales of murders, bulldozings, disregard of law. He believed that North and South Carolina could be carried for the Republicans. He expressed a hope and belief in the possibility of renewed fraternal relations born of mutual concessions.

Dr. C. W. Goff, of New York, sailed for Russia on the steamer Germanic, of the White Star line, on a special mission for the cure of that dreadful disease diphtheria, which is now raging and devastating many parts of Russia. Dr. Goff is of the opinion that the medical talent of Russia is incapable of coping with that scourge, and he concluded to go there and let the Russians see what an American physician can do with the disease. Dr. Goff feels confident his mission will be successful. He is highly recommended by the Secretaries of War and the Navy and by the Russian Minister and Consul.

RAILROAD FREIGHT DISCRIMINATIONS.

Mr. Mitchell, of New York, introduced into the Assembly the following important bill concerning railroad freight discriminations, and it was referred to the Judiciary Committee:

Section 1.—In addition to the cases in which a writ of mandamus is now authorized by law a writ of mandamus may hereafter be granted to compel any person or corporation doing business as a common carrier to perform his or its duty or obligations as such, whether the same be those recognized by the common law or imposed by statute.

Sec. 2. The practice in proceedings hereby authorized shall conform, so far as the same may be consistent with the purposes of this act, to those practiced in other cases of mandamus, but the writ, under this act, may be granted by a justice of the Supreme Court, or by a judge of a county court, either in or out of court, and the alternative writ may be made returnable before the officer granting the same, at such short time as may seem to him reasonable and proper, having in view the circumstances of each case.

Sec. 3. The return, if a demurrer, must be answered forthwith, and if an answer, must be tried forthwith and by a jury, unless the parties consent to a reference, and a jury may be specially summoned, when necessary, for this purpose by the officer to whom the return is made.

Sec. 4. The writ must be directed to and served on and the return made by the common carrier or the officer, agent or employee refusing or neglecting to perform this duty or obligation, concerning which complaint is made.

Sec. 5. This act shall take effect immediately.

Mr. Mitchell's bill evidently is drawn in conformity to the plan of railroad reform in the matter of freight discriminations which was recently advocated by a very able lawyer, Mr. Franklin B. Gowen, the President of the Philadelphia and Reading Railroad Company, before the Committee on Commerce in the House of Representatives at Washington, and the following extracts from Mr. Gowen's arguments illustrate its intended application:

"I affirm that no remedy would be so certain and so effective as a statute declaring that the writ of mandamus may be issued by the courts, at the instance of any person aggrieved, to compel the instantaneous performance by the common carrier of the duty which is imposed upon him at common law. The only remedy has been to file a bill in equity and to obtain, at the end of years of delay, a final injunction, granted long after the business of the complainant has been destroyed by the very acts of injustice for which he sought relief. I submit, with great confidence, that the remedy of a writ of peremptory mandamus would be certain and effective, that no other can be found to answer so well, that no railway company desiring to do justice need fear an application for the writ, and that every question of what is and what is not an unjust discrimination can safely be left to the determination of the courts. You can no more legislate property on such an intricate question as freight charges than you can frame a constitution embracing all the technical details required to be applied by legislation from time to time to suit the changing wants of a progressive population. But if you once announce—that is the common law—that no common carrier shall make any unjust discrimination, and then give to the courts the power to enforce obedience to the law by a writ of mandamus, you vest in the proper judicial tribunals, in which it ought to be vested, the ability to apply a remedy which will be short, sharp and decisive."

SCIENTIFIC INTERCHANGE.

His Majesty the Emperor of Brazil has created in Rio Janeiro a Central Commission of International Permutation. This course has been taken in pursuance of a resolution adopted at the International Congress of Geographical Sciences, which assembled at Paris in 1875, and which was signed by the representatives of sixteen countries, among them the United States. The purpose which the resolution contemplates is the organization of central offices in every country entering into the programme for the purpose of collecting the cartographical, geographical and other publications printed at the State's expense, and distributing them through the several countries in question. The publications and official documents, which it is chiefly intended to interchange are those which relate to the knowledge of the globe, and in the second place those appertaining to statistics in all their varied branches. Communications for the Brazilian Central Commission may be forwarded through the medium of the Consul General of Brazil in New York.

A large portion of the first volume will be devoted to Davis' views as to the causes which led to the civil war. The remainder of volume first and the whole of volume second will relate to the conduct of the late war.

[Eureka Leader]

In an article giving an idea how the Bullion tax law works, the Virginia Chronicle says:

During the quarter ending December 31, 1879, the Sierra Nevada mine yielded bullion worth \$79,641.41. The disbursements of the company during the same period were \$214,350.51, which is \$134,709.10 in excess of the value of bullion produced. Yet under the bullion-tax law the company has to pay city, county and State taxes upon \$31,857.56 of its gross proceeds.

It claims that Spain might take a lesson from Nevada in framing laws to discourage the development of her resources, and adds:

The senseless persons who clamored so loudly against the modification of Nevada's bullion-tax law would no doubt insist that it would be good policy for Spain to change her laws in the manner indicated, but as that country has had a few thousand years of experience to guide it, the arguments of the wise men of the West would most likely be unheeded.

In the meantime, what a curious train of thought is suggested by the fact that the stockholders of the Sierra Nevada mine are called upon to pay an assessment to pay the tax upon their bullion!

The idea conveyed is that the so-called Compromise Bullion tax law that was vetoed by Governor Bradley would have afforded some relief in the instance cited in the article, but such is not the case. Were it not for the law now, the Sierra Nevada would have to pay exactly the same amount as under the present law. The proposed law was a benefit only to the mines that were paying large profits and did not benefit those that were not yielding enough to pay expenses, as appears to have been the case with the Sierra Nevada mine. In short, it was only designed to benefit the California and Com. Virginia, that were then yielding immensely, and were obliged to pay on their net yield, as they could not show the cost of extracting, transporting and working their ore up to the per cent allowed by the law that might be deducted if such showing could be made. The object of that law was not to foster the mining industry of the State by exempting mines that were not paying a profit from the payment of any tax whatever, but to allow some of the then enormous profits of the Bonanza kings to escape taxation. The truth is, that if the proposed law had been in operation for the past two years the taxes on the proceeds of the mines would have been levied on the same amounts as under the present law; and it would make no difference, until some bonanza was struck that paid immense profits, when it would insure to the advantage of its fortunate owner, by letting off from a tax on a portion of his profits. In short that law was for the benefit of the rich mine owner, and in no manner or shape helped or was intended to help the mines not yielding large profits. If a sufficient revenue can be raised and exempt such mines as the Sierra Nevada from taxation it ought to be done, for the paramount industry of the State should be fostered and encouraged; but such measures as the Compromise Bullion-tax Law was neither a fostering or encouraging measure to that interest.

It will not do to bring up such instances as this to prove that it was a wise and proper measure, and to reflect on the good sense of those who opposed it.

The Fittest Subjects

For fever and ague, and remittents, are the debilitated, bilious and nervous. To such persons Hostetter's Stomach Bitters affords adequate protection from the malarial pest, by increasing vital stamina and the resistant power of the constitution, and by checking irregularities of the liver, stomach and bowels, which increase the danger to be apprehended from malarial influence. Moreover, it eradicates malarial complaints of an obstinate type. The field in which this leading family medicine has achieved some of its most astonishing and amply proven effects, is a very wide one. In the malarious regions of our own country in South America, Mexico, and across the seas, it has given unmistakable evidences of its curative value. At home and abroad it has always sustained its high reputation, nor has it ever been affected by competition of so-called tonics represented to possess standard or equal efficacy. It stands alone, unequalled among our national remedies.

YESTERDAY'S STOCK REPORT.

Table with 2 columns: Stock Name and Price. Continuation of stock report.

Local Brevities.

Shoot the burglars. Joe Jones came in from Pyramid last night. The game law goes in force April 1st. Hunters are improving the time. The Republican County Central Committee will meet on Saturday. Members should bear it in mind. Stocks were still sick yesterday. Bolcher selling as low as 4.95. It afterward rallied on the news that crosscutting had been commenced on the 3,000-foot level. The late strike in the J. & K. is a matter of conversation with all interested in Pyramid. The weather is pleasant. Costumes for the masquerade are worrying many. Myerstein, of the I X L has gone below after Spring goods. Count Lesseps, the great Suez and Panama canal man, was a passenger on last night's west-bound Overland, en route to San Francisco to consult with parties there about the Panama scheme. Unsuccessful Burglars. Lately two attempts have been made to burglarize Isachman & Meyer's store. A few nights ago the door in the rear was cut in several places near the lock, and last Saturday night the same parties bored a hole through with an augur, but Meyer had "smelled a nice," and covered it with some sheet iron, and believing they would not have time to complete their job, the burglars abandoned it.

Crossing Wanted.

A petition was circulated yesterday, and largely signed, asking the C. P. R. R. to plank the railroad where it crosses Virginia street, so that that street could be opened its whole length for public travel. If the Company refuse to grant the petition we hope the Board of Commissioners will pass an ordinance which will meet the requirements of the case.

Transfers.

Conductor Dave Willard has been given one of the regular overland trains, between Sacramento and Truckee taking Calderwood's place, who goes on the Oregon Division in place of Hawkins, resigned. Johnny Connors will take Willard's run on the lightning. Dave's friends are pleased because he has been promoted, but regret to have him taken away from Reno.

THE J. & K.

The New Body of Ore—No Longer a Prospect, But a Mine.

The JOURNAL last Saturday announced the finding of a new body of ore in the Jones & Kinkead mine, at Pyramid, and on Sunday that Messrs Kinkead and Leete had gone to see what it amounted to. These gentlemen returned on Sunday evening, bringing in a large number of specimens, and from them we learn that the development is a guarantee that the J. & K. is no longer a prospect, but a mine, and that the long looked for bonanza has at last been found. The drift passed through nine feet of the black sulphuretted ore, and then for ten feet was in ore that could not be told apart from genuine Comstock ore. The face of the drift was still in this ore when they came away, and Superintendent Jones, intended to keep on until he should reach the wall. This find is on the 400-foot level. There are hundreds of tons of \$30 ore on the upper levels, but it was reserved for the 400 to show the first genuine Comstock quartz. The assays from the new find average nearly \$200 per ton, and there is sufficient ore in sight to justify the putting up of a mill, which we understand will be done immediately. The J. & K. folks have been working along for years, and up to this time have expended about \$30,000, all the money being paid by Renoites. There is no mine in the State which can show as much work for as little money. Neither is there any outside mine which has as good a prospect, and we feel now, as we always have, that the mine will prove one of the best ever opened up in the State. Superintendent Jones is anxious that all stockholders should visit the mine and see for themselves, and for that purpose will not disturb the ore for a week. We understand there will be an "exodus" from Reno next Sunday to accept the invitation.

The Juvenile Concert.

We certainly hope that the little "old folks" will be greeted by a crowded house to-night, when they are to repeat the entertainment that was so successfully given last evening. A happier, brighter or better trained set of juveniles are seldom collected. They were so completely disguised by their old fashioned clothes that it was almost impossible to identify them, so that we are not able to mention many that were deserving of great praise. The programme was given in full and several tableaux not on the bills were presented. "The Courtship of Washington" was a—words fail to express it; perhaps "daisy" will do. Little Bertha Irvin took the character of Martha Washington, and a sweeter, quainter child we have never seen; seemingly about the age of four years her manners were full of quiet dignity. During the whole evening the little red lips were never parted in a smile. "George" was represented by Charlie Coffin, we believe. The same height as his companion and equally easy in his part. They formed a wonderful little couple. Some other diminutive people that were recognized were a son of Mr. Varian, one or Mr. Hubbard, Clara McKelvey, Tootsie Tompkins, Teddie Tallman, and more that we were sorry not to know. These all did extremely well for infants. Little baby Tallman must be awarded the palm for fine acting, however. The dot wept tears and clasped both tiny hands over the place where the heart is supposed to be, in an irresistibly funny way. Miss Ada Vaillancourt, as teacher of the singing "skule," bore a very strong resemblance to the "Sir Joseph" in the Juvenile Pinafore Troupe. Kittle Loomis was, of course, captivating in her numerous parts. Nona Seaton and Willie Tallman in their duet, "People will talk," were as cute as could be. Their voices are both good. A recitation concerning the troubles and trials of a housewife on washday was given with vim by a little girl nine or ten years old. The child who took the leading part in "Cousin Hezikiah" was a nice singer, and very natural in her manner. The older children did extremely well. Flora McKay sang John Anderson, my Jo, John, with wonderful expression. Minnie Vaillancourt recited "The New Church Organ" and acted it out perfectly. Josie Wintermantel sang several fine solos, and several large boys did their best, which of course was not equal to the girls. It is very plain to see that hard work was in the preparation of this concert, and we hope will be a financial success.

Robbery Reported.

On Sunday evening John Gleason claims that while under the influence of liquor he was robbed of \$80 and a gold watch some place on Commercial Row, but by whom he does not know. The officers suspicion a certain person and the case is being worked up.

Ex-Congressman Wren was a passenger for the Bay last night.

A letter from Wm. McDougal, Yellow Jacket mine, Gold Hill, is detained at the Reno office for lack of a 3-cent stamp.

Late Rules and Instructions Adopted by the State Land Office.

STATE LAND DEPARTMENT, CARSON CITY, Nev., March 10th, 1893.

For the convenience of applicants and agents for the purchase of State lands, it has been found necessary to adopt the following, in addition to the rules and instructions heretofore adopted and published by this department: 1st. Applications for the purchase of University Lands cannot be entertained, and will in all cases be refused. 2d. No application for the purchase of any lands will be received until the official plats have been filed in this office. 3d. Contracts for the purchase of lands must be signed by the applicant or his legally authorized attorney, whose special power of attorney, duly executed, must be deposited in this office before the contract can be completed. 4th. A special order from some Court having proper jurisdiction is required to authorize the legal representatives of a deceased applicant to enter into contract for the purchase of land applied for by deceased; such order must specifically describe the land, give the name of applicant, the name or names of persons authorized to sign contracts, and such order must be properly attested by the Clerk of the Court, and be deposited in this office, before such contract can be perfected. A special order of the Court in such cases is sufficient. No transcript copies of wills, letters testamentary or other proof of authority are required. 5th. In case full payment is made on the application or contract of any person since deceased, an order of the Court having jurisdiction of the estate of deceased, is required, directing to whom the patent shall issue. 6th. Applications to purchase land, and the money deposited therefor, cannot be withdrawn except for such part thereof as the State may for any cause be unable to convey. In case there are two or more applicants for the same land, all can withdraw except the one entitled to purchase. 7th. The legal representative of a deceased applicant entitled to withdraw can do so by presenting the duly attested order of any Court having jurisdiction of the estate of deceased. 8th. A deed from the applicant invests the grantee with the right to make full payment and receive the patent (in the name of the applicant) or to withdraw money deposited in case the sale cannot be completed, but does not authorize the grantee to enter into contract. See Rule 3. 9th. Patents will invariably issue in the name of the applicant, except in case this Department is legally notified of the death of such applicant; in which case patent will issue as provided in Rule 5. 10th. The powers of attorney and orders of Court above referred to must specifically state the act and thing to be done by the attorney or person authorized, and accurately describe the land by legal subdivisions of survey as written in the application. The proper form of power of attorney can always be had on application to this Department. A. J. HATCH, Surveyor General and ex-officio State Land Register.

NEWS OF THE MORNING.

The San Francisco Chinese are clearing up Chinatown, in order to comply with the requirements of the health ordinance.

Senator Don Cameron has been informed by one of his Philadelphia chieftains that Grant may not receive the solid vote of the Pennsylvania delegation at Chicago on the first ballot, there being strong indications that at least twelve of the delegates will immediately announce their preference for Blaine.

There was a large attendance at the sand-lot Sunday afternoon, including many of the respectable classes, drawn by curiosity. Kearney took an entirely new departure. He invited the leaders of the Citizens' Protective Union to meet the leaders of the Workingmen on the sand-lot for an exchange of views, promising them a respectful hearing. He also informed his followers that the object of the Citizens' Protective Union had been misapprehended; that they intend to use the association for the amelioration of the condition of the city, for the good of the laboring classes and the restoration of prosperity; that some unscrupulous men had taken advantage of the movement to create the impression that violent measures against the Workingmen were intended, whereas nothing of the kind was meant. Kearney's audience received his novel speech undemonstratively.

At the Metropolitan Temple last Sunday evening Kallach adopted Kearney's cue and spoke to a similar effect. It is evident that the Citizens' Union is making itself felt.

Police Judge Rix will sentence Kearney to-day.

Murderer in Charge.

Last night Sheriff Ben Fitch, of Elko, brought in Lopez, the Spaniard convicted of murder and sentenced to be hanged on the 16th of next month. He will be taken to the State Prison this morning, as he is also under sentence of two years for horse stealing. Lopez has applied for a new trial on the murder trial.

Bound Over.

Justice Young yesterday bound Ah Tung over to answer to the Grand Jury for assault with intent to kill. Ah Tung was one of the principals in the stabbing affray in Chinatown last Thursday.

Complete Assortment.

If you want anything in the way of boots or shoes, you should give Tom Barnett a call. He has one of the finest stocks ever brought to this market, full and complete in every department. His ready-made goods are from the manufacturers of the best repute, and cannot be excelled on the coast. If you want a well-fitting and easy boot made he employs none but the best workmen, and will guarantee entire satisfaction. His new advertisement is worth reading, and for further particulars we advise you to apply to Mark Barnett, his manager.

Brown's Household Panacea

Is the most effective Pain Destroyer in the world. Will most surely quiten the blood whether taken internally or applied externally, and thereby more certainly relieve pain, whether chronic acute, than any other pain alleviator, and it warranted double the strength of any similar preparation. It cures pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache and all aches, and is the Great Reliever of Pains. Brown's Household Panacea should be in every family. A teaspoonful of the Panacea in a tumbler of hot water, sweetened if preferred, taken at bedtime, will break up a cold. 25 cts. a bottle. JANIU-17-1893

Much Sickness.

Undoubtedly with children, attributed to other causes, is occasioned by Worms. BROWN'S VERMIFUGE COMFITS, or Worm Lozengers, although effectual in destroying worms, can do no possible injury to the most delicate child. This valuable combination has been successfully used by physicians, and found to be absolutely safe in eradicating worms, so harmful to children. Twenty-five cents a box. JANIU-17-1893

NEW YORK WEEKLY HERALD

ONE DOLLAR A YEAR.

The circulation of this popular newspaper, has more than trebled during the past year. It contains all the leading news contained in the *Saturday Herald*, and is arranged in handy departments. The

Foreign News

embraces special dispatches from all quarters of the globe. Under the head of

American News

are given the Telegraphic Despatches of the week from all parts of the Union. This feature alone makes

The Weekly Herald

the most valuable chronicle in the world, as it is the most correct. Every week is given a faithful report of

Political News

embracing complete and comprehensive despatches from Washington, including mail reports of all the leading political news of the world.

The Farm Department

of the Weekly Herald gives the latest as well as the most practical suggestions and discoveries relating to the duties of the farmer, hints for raising cattle, poultry, grains, trees, vegetables, etc., with suggestions for keeping buildings and farming utensils in repair. This is supplemented by a well-edited department, widely copied under the head of

"The House"

giving recipes for practical dishes, hints for making clothing and for keeping up with the latest fashions at the lowest price. Every item of cooking or economy suggested in this department is practically tested by experts before publication. Letters from our Paris and London correspondents on the very latest fashions. The Home Department of the Weekly Herald will save the housewife more than one hundred times the price of the paper. The interests of

ASSESSMENT NOTICE.

Nevada State Agricultural, Mining and Mechanical Society. Location of property, Reno, Nev.

Notice is hereby given that at a meeting of the Board of Trustees of the Nevada State Agricultural Mining and Mechanical Society, held on the 19th day of January, 1930, an assessment (No 1) of two dollars (\$2) per share was levied upon the capital stock of the Society, payable immediately in U. S. gold coin to the Secretary at his office.

Any stock upon which this assessment still remains unpaid on the 15th day of March, 1900, will be delinquent and advertised for sale to public auction; and unless payment is made there will be sold on Monday, April 16th, 1900, to pay the delinquent assessment together with costs of advertising and expenses of sale.

By order of the Board of Trustees,
P. B. COMSTOCK, Secretary,
Reno, January 20th, 1900.
